PESTS

512 East 14th Street, Kansas City, Missouri

(Subscription Price, $3.00 Per Year)

This handy reference page is supplied to the National Pest Control Association so that it may be filed with Service Letters. Many file pages in loose leaf binder so as to refer for information as printed in Pests.

THE INDEX

The early part of 1938, in the January issue, there was printed a summary or Index of all major articles that were published in this magazine (then called The Exterminators Log) from 1933 through 1937. In the February issue was printed the Index of all leading editorials that were published in the same period. This feature has proved so helpful and so many have been the complimentary remarks about such Index forming an easy reference, that we are offering the combined Index of both feature articles and editorials that have been published throughout the entire year of 1938.

THE FEATURES' INDEX FOR 1938
